PROFILE

Third-year B.Tech CSE (AI & ML) student specializing in **full stack development using FastAPI and React/Next.js**. Experienced in building end-to-end web applications with REST APIs, frontend integration, and database management. Strong focus on scalable backend systems, clean architecture, and seamless frontend-backend communication.

EDUCATION

Bachelor of Technology in Computer Science Engineering (AI & ML)

YMCA — Faridabad, India

2024 – 2028 (Expected)

Relevant Coursework: Data Structures, Algorithms, Machine Learning, DBMS, Operating Systems

SKILLS

Languages: Python, JavaScript

Frontend: React.js, Next.js, HTML, CSS, API Integration

Backend: FastAPI, REST API Development

Databases: SQL

Tools: Git, GitHub, Swagger/OpenAPI

Core Concepts: Data Structures, DBMS, Operating Systems

PROJECTS

E-Commerce Backend Application (FastAPI)

-  GitHub: <https://github.com/hackersclub24/fastapi>
- Developed backend for an e-commerce application using FastAPI and Python
- Built and documented RESTful APIs using Swagger/OpenAPI
- Designed modular architecture for scalability and maintainability
- Deployed live APIs with structured SQL-based data handling

Skill Street | Founder & Full-Stack Developer

Student Task Collaboration Platform  <https://www.skill-street.in/>

- Founded and developed a full-stack platform enabling students to post, discover, and collaborate on academic and freelance tasks.
- Designed and implemented a role-based system for task posters and contributors, streamlining task management workflows.
- Built an end-to-end application process, including task applications, contributor selection, and acceptance workflows.
- Developed scalable backend services using FastAPI and a responsive frontend with Next.js.
- Integrated SQL databases, authentication, and RESTful APIs to ensure seamless user interactions.
- Architected the platform with a modular structure to support future scalability and feature expansion.
- Managed product design, development, deployment, and maintenance as an independent founder.

CERTIFICATIONS & ACHIEVEMENTS

Python Database Connectivity — Certified in database interaction using Python and SQL ([certificate link](#))

Hackathon Finalist (Multiple Events) — Recognized for problem solving, teamwork, and rapid software development.
